## Syria Operations Consultant

### Background

Turquoise Mountain supports artisans and communities to protect and revitalise their heritage. Our work is rooted in the belief that cultural heritage has the power to transform lives. Founded in 2006 by His Majesty King Charles III, we work directly with artisan communities in Afghanistan, Myanmar, Saudi Arabia and the Levant. To date, we have supported over 11,500 artisans across 86 craft traditions, restored more than 170 historic buildings, and provided primary healthcare and education for artisans' families.

Turquoise Mountain has been working with Syrian artisans in Jordan since 2019. We are now expanding our operations to Syria to contribute to the revitalisation of Syria's great craft traditions and the urban regeneration of cities like Aleppo.

We currently employ an Aleppo Lead overseeing programming, operations and finance in relation to built heritage restoration projects in the Old City of Aleppo. We are now also looking to establish an office in Damascus and have designed projects to support the rebuilding of Syria's craft economy with a focus on Damascus. We are therefore looking for a person to take on the task of ensuring Turquoise Mountain has all the relevant infrastructure in place to support programmes across Syria, but with a focus on Damascus.
